

TANMOY MOZUMDER

Full Stack Developer | Java · Spring Boot · Laravel · React · Angular

Kafrul, Dhaka, Bangladesh | tanmoymozumder0@gmail.com | +880 1701716101 | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience delivering scalable web applications and RESTful APIs using Java, Spring Boot, PHP, Laravel, React, and Angular. Skilled in backend architecture, JWT-based authentication and authorization, relational database optimization, and cloud deployment on AWS. Proven track record of improving API performance, shipping production-grade software in Agile teams, and supporting systems used by 500+ end users.

PROFESSIONAL EXPERIENCE

Junior Software Engineer - Lead Skill IT

Jan 2026 – Jul 2026 | Savar, Dhaka, Bangladesh

- Engineered responsive, scalable web applications using Angular and Spring Boot to support examinations, academic operations, and administrative workflows for a university-scale user base.
- Designed and implemented secure RESTful APIs with JWT-based authentication via Spring Security, and optimized PostgreSQL/MySQL queries to boost API performance by 20%.
- Partnered with a cross-functional Agile team of 4 developers on sprint planning, code reviews, and feature development, delivering high-quality, maintainable software with seamless frontend-backend integration.
- Deployed and maintained production applications on AWS EC2 with static assets served via AWS S3, sustaining reliable, highly available deployments for 500+ users.

Frontend Developer - Softvance Limited

Feb 2025 – Jun 2025 | Mohakhali, Dhaka, Bangladesh

- Built responsive web applications and reusable UI components using HTML, CSS, JavaScript, and React, improving development efficiency and overall user experience.
- Collaborated with backend teams to integrate APIs, optimize application performance, and reduce page load times.
- Migrated legacy frontend code to modern frameworks, enhancing maintainability and long-term scalability.

PROJECTS

HR Management System

Tech stack: Java, Spring Boot, Spring Security, PostgreSQL, Thymeleaf

- Developed a web-based HR management platform to centralize employee data, attendance, payroll, leave, and performance tracking in a single system.

Contact Manager System

Tech stack: Java, Spring Boot, Spring Security, MySQL, Microservices, Thymeleaf

- Built a secure, CRUD-based contact management application with user authentication, including login and OAuth integration, using a microservices architecture.

SKILLS

Languages: C, Java, PHP, JavaScript, TypeScript, Python

Frameworks: React, Angular, Spring Boot, Laravel

Databases: PostgreSQL, Oracle Database, MySQL

Cloud / DevOps: AWS (EC2, S3), Azure Services, Docker, Jenkins, Git, Bitbucket

Applied AI & Integration: OpenAI API, Gemini API, Spring AI, LangChain, Ollama (Local LLMs), Prompt Engineering

Concepts & Tools: System Design, Load Balancing, Agile/Scrum, Jira, Trello

IT Support: OS Installation & Troubleshooting, Hardware Maintenance, Basic LAN Networking, MS Office Suite

EDUCATION

B.Sc. in Computer Science and Engineering, Primeasia University

2019 – 2023
